# CORTEN EDGIND AND STAKES

Corten steel edgings are available in 3 heights: 100 - 150 - 200 mm, with a thickness of 20/10 (2mm) for rigidity and flexibility, and a fixed length of 2ml for curved work.

Corten steel kerbs can be laid loose, welded together, edge to edge or joined with flat bars.

# POTS AND PLANTERS

*Our corten steel pots and planters are manufactured with dedication. They come in a variety of shapes and sizes and are made of resistant materials. They are designed to enhance your plants, give volume to your creations and serve as a decorative element. The MetalCorten Garden range of planters allows you to add flowers to your balcony or embellish your garden terrace.*

*We also design made-to-measure planters for all garden sizes: contact us for your specific projects.*
